

INVICTUS

Premium Touch Screen POS System
for Today's Merchant

Highlights:

- Adjustable, true-flat PCAP touch screen
- Preinstalled POS software - QMP
- Android operating system
- Integrated WiFi module
- Additional interfaces in the stand
- Practical cable management
- Optional wall-mount available
- Prepared for any fiscal requirements

The Next POS Generation Is Here

The INVICTUS offers the same sought-after features and operating philosophy of QUORION's accomplished QTouch series. It combines the latest hardware standards in an ergonomic design. The high-resolution (Full-HD) touch screen display with a 16:9 wide-screen format presents information clearly, even from different viewing angles. Adjust the display as needed to

maximize comfort. The bright 15.6 inch capacitive touch screen allows for intuitive menu ordering and speeds up sales entry. It also provides better protection against the intrusion of dirt, dust, and other debris than most other types of touch screens. Its stable and strong metal stand makes INVICTUS the ideal solution for all point-of-sale and service points.

Dallas lock

Wall mount

Adapt the INVICTUS to your individual business needs with the optional Dallas lock and wall mount.
