

ENTRY LEVEL WITH VALUE

Compact and cost efficient

With its small foot print and dimensions, the QUORION QMP 18 is the ideal companion for small businesses and customers who attach great importance to a low cost system without feature limitations. It offers you superior fast transaction processing, loads of features, and storage as well as ample connectivity options for external devices.

Versatile and powerful

Despite its petite size, you nonetheless gain a powerful POS solution, thanks to the 32-bit architecture. Furthermore, the powered interfaces allow you to connect all the peripheral devices you may need such as cash drawers, scales, scanners, and EFT terminals. The USB port makes fast PC programming possible. Combine that with a fast Easy-Load thermal printer and you get a superior entry level cash register with exceptional value.

Flexible and intuitive

The QMP 18 is easy to program and use. It comes with the flexible QMP software, so you receive only the features you need in your segment and thereby guarantees a short learning curve. The QMP 18 even provides an inventory management function - a first in its class. In addition, you profit from a multitude of flexible and accurate reports, which allow you to retrieve vital sales information in order to make decisive business decisions.

QMP 18

Need additional QMP features for your business?
No problem. Try the following QMP add-ons:

QLabel – tag your inventory with scan code labels.

EJournal View – analyze your ejournal with this easy-to-use tool.
